

BLASTWIZARD® KWIKBLAST 120T

Include 175 cfm compressor

The Blastwizard® Kwikblast 120T is both convenient and powerful. It comprises of a Blastwizard® Kwikblast 120, a 115 litre water tank and a 177cfm compressor — with a blasting time of up to 8 hours. The Blastwizard® Kwikblast 120T is extremely popular with many of our highways customers for road marking removal and other similar projects, and who are often working in difficult and remote locations where access to a water supply is often limited or non-existent.

The Blastwizard® Kwikblast 120 Trailer takes away the hassle and worry of being held up on site waiting for plant hire companies to deliver compressors and of potentially unreliable water supplies.

Dimensions

Height	1750mm
Width	1800mm
Depth	4300mm
Unladen Weight	1580kg
Laden Weight	1920kg (garnet)

Specifications

Water Tank	121 litres
Water Consumption	100 – 200ml per minute
Grit Type	Standard particle blast media
Grit Consumption	0.4 – 0.7kg per minute
Blasting Time	Up to 8 hrs between refills
Air Supply	177cfm
Air Supply Hose	2 inch
Blast Hose Size	1 inch
Blast Hose Max Length	100m
Blasting Pressure	20 – 120psi
Compressor Fuel Tank	50 litres

Blast Media

Garnet – 8 bags
Iron Silicate – 7 bags
Glass – 5 bags
